

Online Third Party Services

Parent Information

Dear Parent/Caregiver,

Students at our school regularly use a range of online services to support their learning and assist staff with teaching and school administration. These services can include websites, web-based tools, and other applications provided by third-party vendors that are not managed by the Department of Education.

As a school, we are required to inform parents and caregivers of all third-party services used at the school, and in some cases, gain consent before a student's information can be shared. The Department of Education has completed security and privacy risk assessments on each of the services we use.

To help families stay informed, we maintain this single, regularly updated document on our school website listing all third-party services we use. This document includes the name of each service, how it is used, links to its terms of use and privacy policy, and whether parental consent is required.

Please review this document before completing the Microsoft Form linked below to provide consent where required: [Online Third Party Services Consent Form](#). Alternatively, you can fill in the consent section of this document and submit it by emailing us or returning a physical copy to reception.

Access to these online services is an integral part of teaching and learning at our school. Without consent, your child's access to certain technologies and online tools will be restricted, which may limit their participation in some learning activities and impact the way their education is delivered.

If you have any questions or would like to change your consent at any time, please contact the school on **9251 8333** or by emailing YuleBrook.Col@education.wa.edu.au

Yours sincerely,

Hilary Saunders
Principal
Yule Brook College
